A THOUGHT EXPERIMENT

Your AI can do one job. Which?

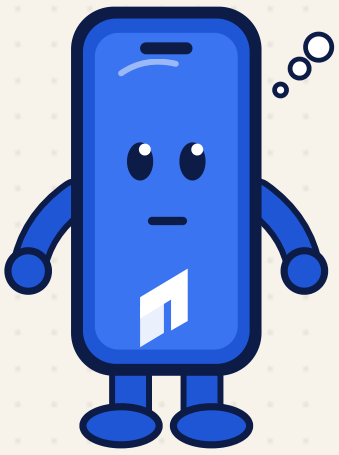

And what must it ask you before it does it?

SWIPE →

THE LIST

Pick one

- [ ] Sell tickets for your next event
- [ ] Chase the invoices nobody likes chasing
- [ ] Draft the newsletter
- [ ] Book the meetings

THE CATCH

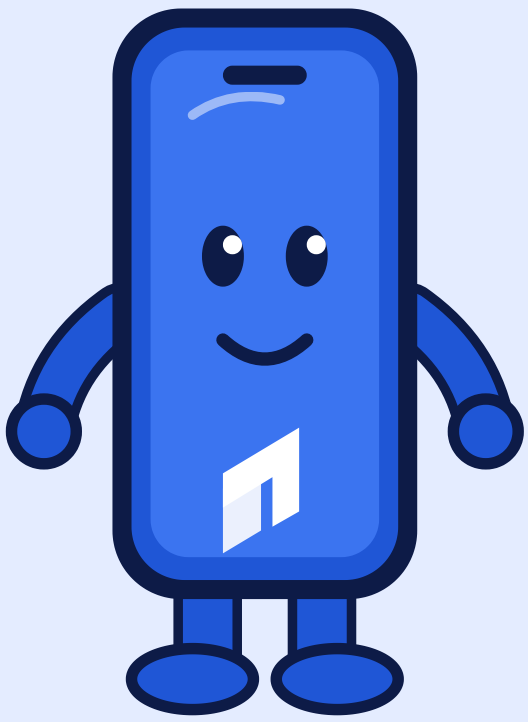

Every one of them has a moment where a wrong guess costs you.

WHERE THE YES GOES

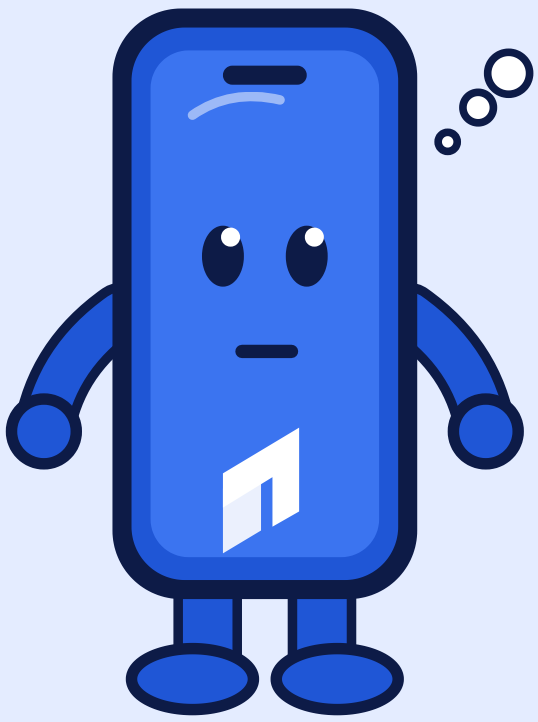

🤖 It can just do

Drafts, sorts, works out, reminds.

✋ It asks first

Anything public, costly or permanent.

THE MORAL

Which job would you hand over first, and where would you make it ask?
