MYTH VS FACT

Five things organisers believe about check-in

~~"You need an event check-in app."~~

~~"You need scanner hardware."~~

~~"No signal at the venue means no tickets."~~

~~"A ticket used twice gets in twice."~~

~~"Free events need a different process."~~

ALL MYTHS

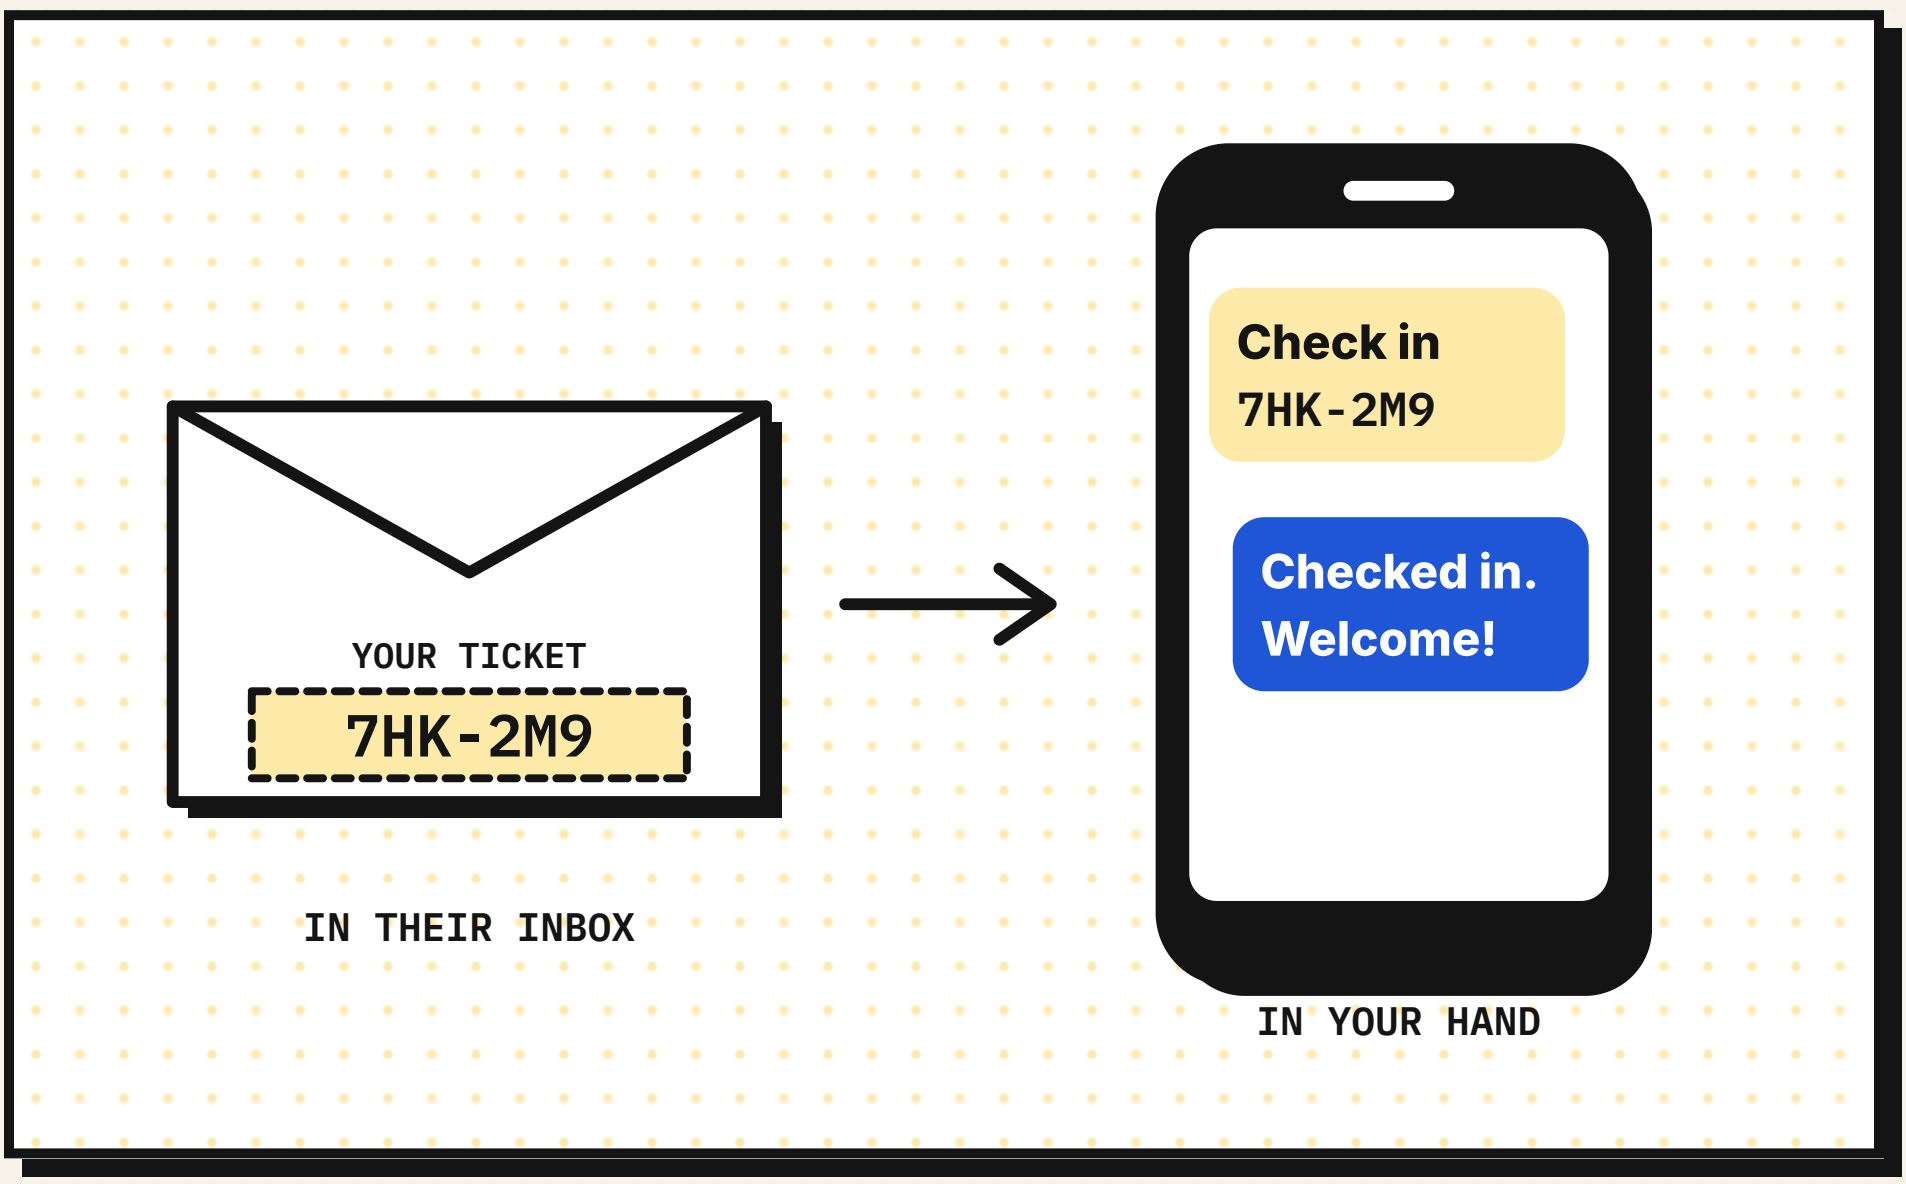

None of them is true. Swipe for what actually happens.

MYTH 1 OF 5

MYTH

Heard before doors

“You need an event check-in app.”

FACT

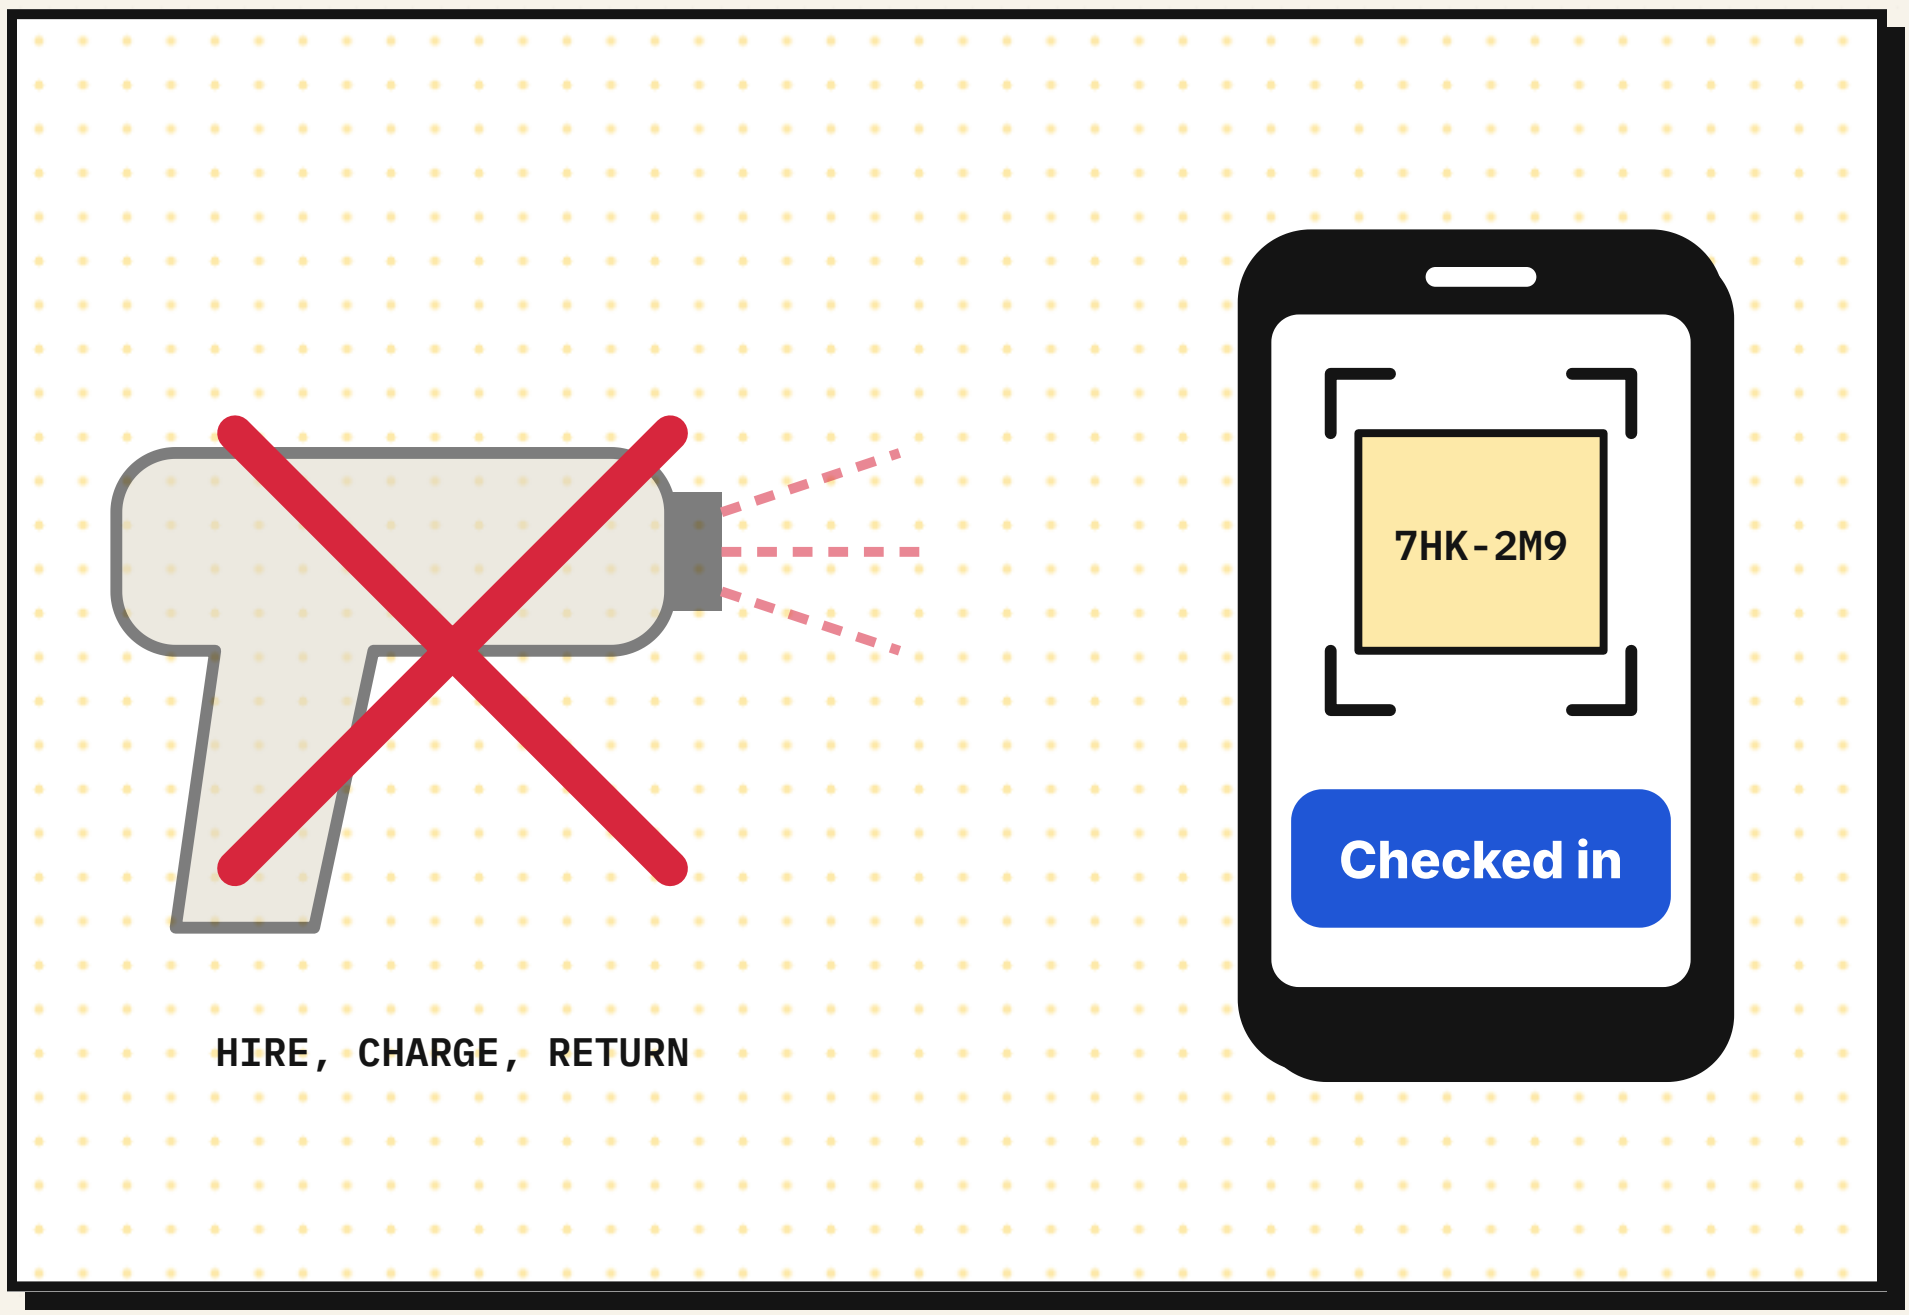

You need a phone and a ticket code. Nothing to install on either side.

MYTH 2 OF 5

MYTH

Heard before doors

“You need scanner hardware.”

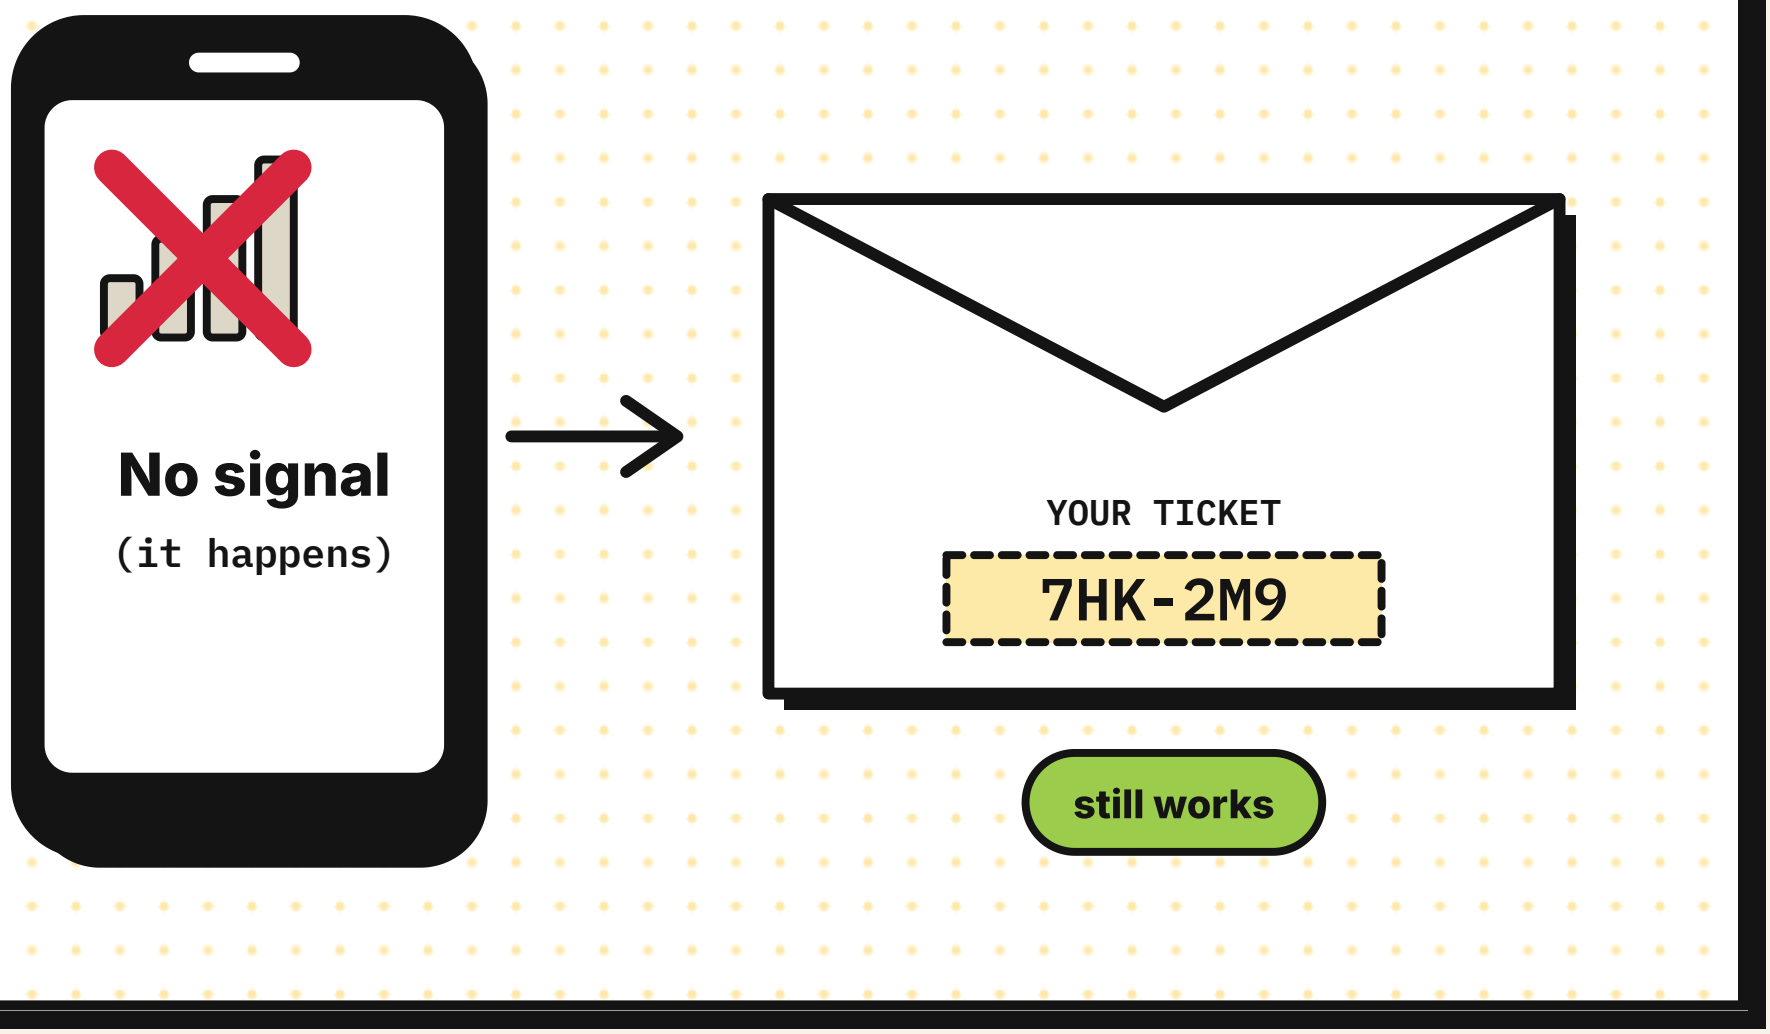

FACT

The phone in your hand is the scanner.

MYTH

Heard before doors

“No signal at the venue means no tickets.”

FACT

The code is inside the email itself, not behind a link.

MYTH

Heard before doors

“A ticket used twice gets in twice.”

FIRST SCAN

Check in 7HK-2M9

✓ Checked in. Welcome!

SAME CODE AGAIN

Check in 7HK-2M9

! Already used, at 18:42

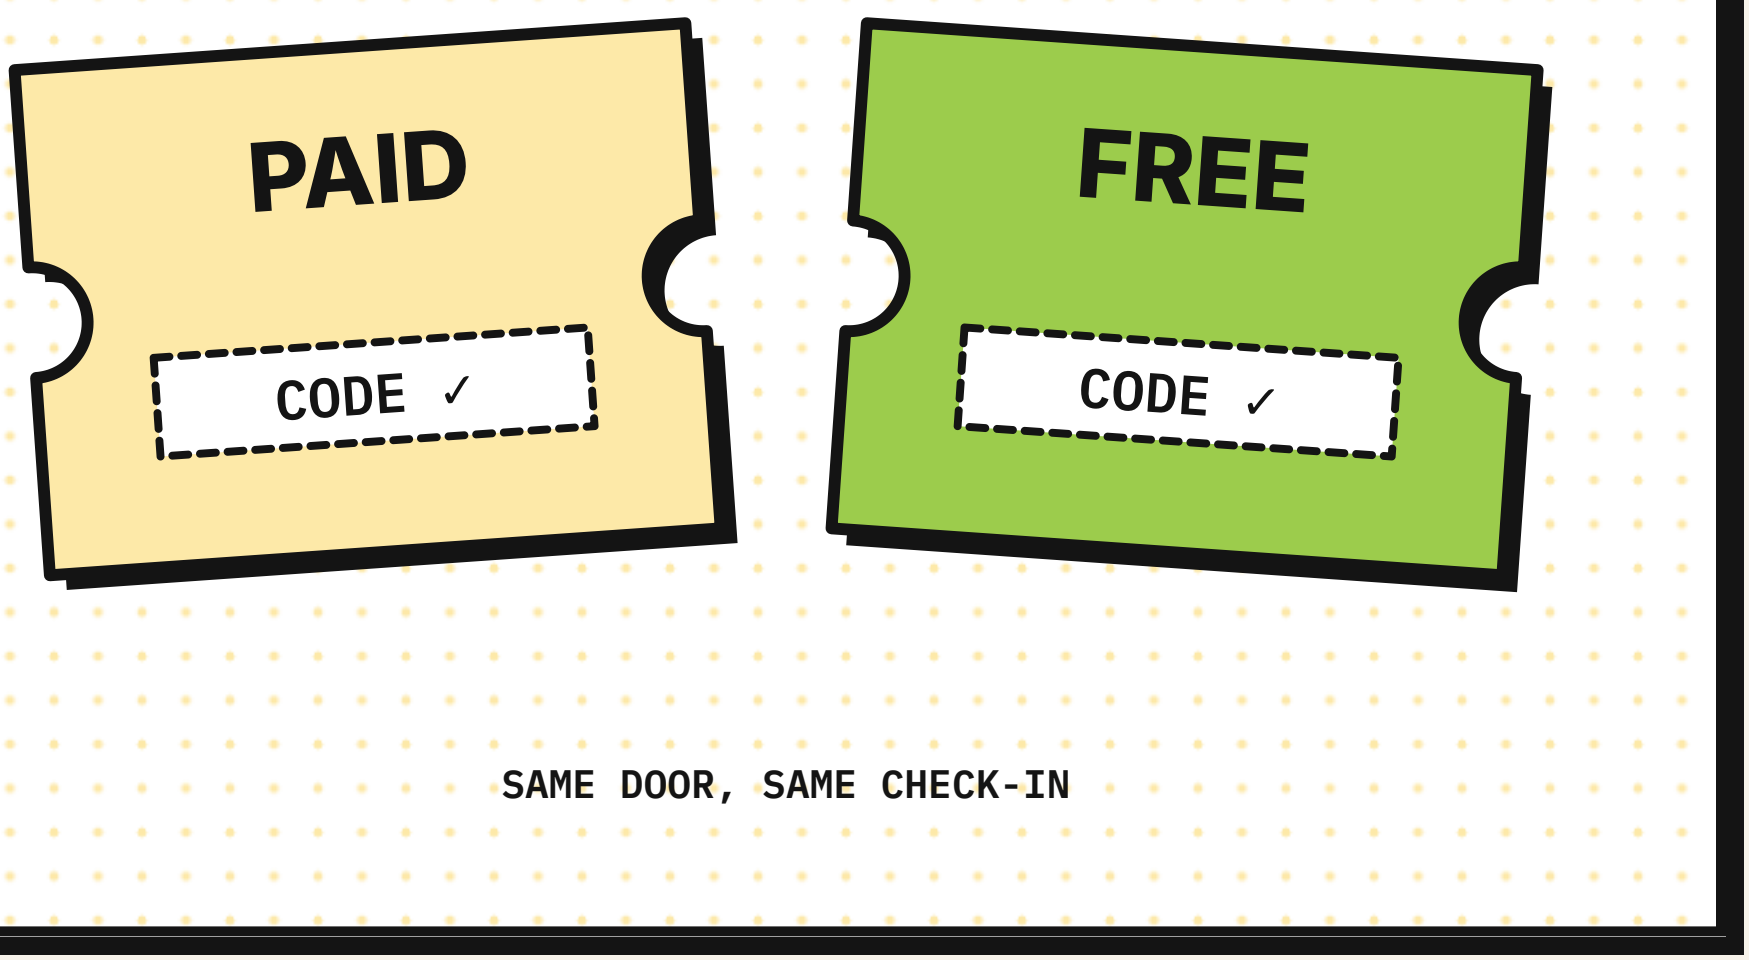

FACT

The second check-in says it was already used, and shows when.

MYTH

Heard before doors

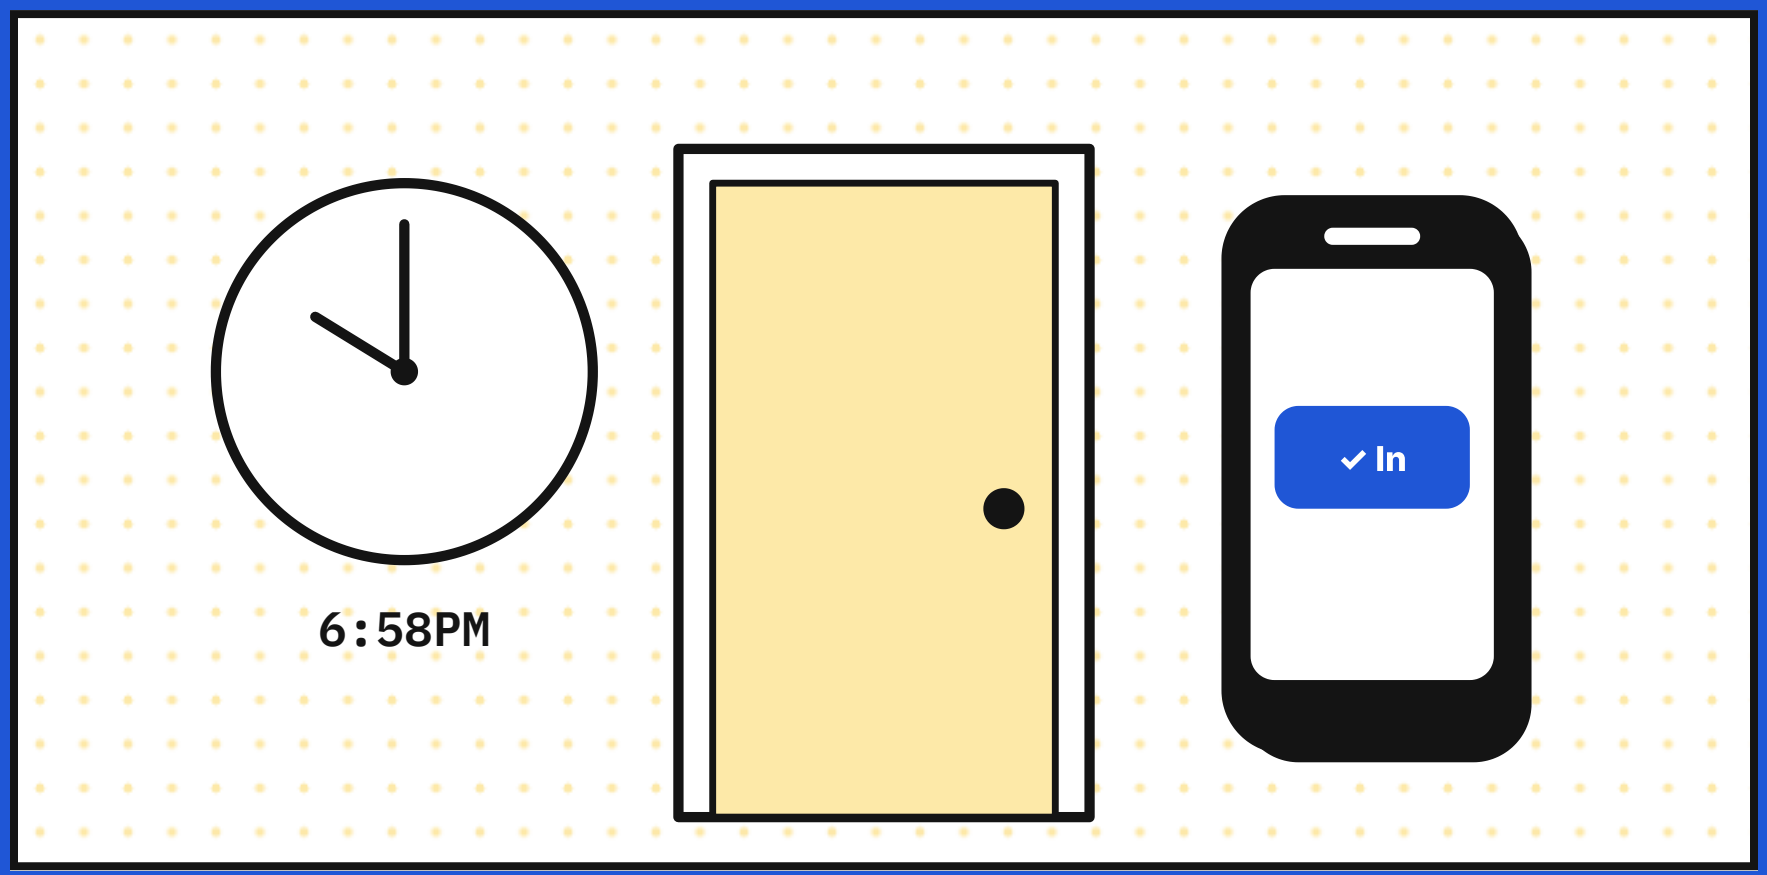

“Free events need a different process.”

FACT

A free ticket gets a check-in code like any other.

THE MORAL

The best check-in app is the one nobody has to install, learn or find at 6:58pm.
