YOUR FIRST CLAUDE SKILL

What to write down, once.

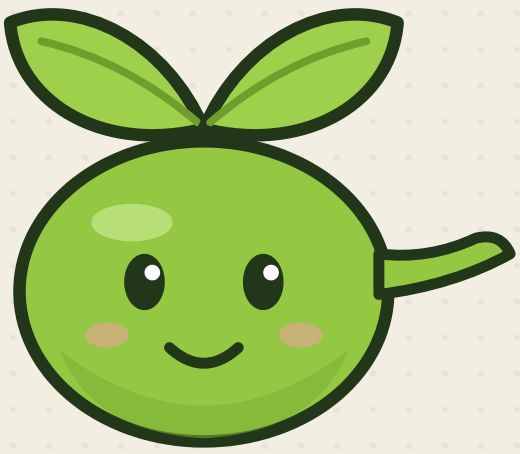

Save this before you next retype the same thing into Claude.

SWIPE →

THE LIST

Write these down

🔁 What you retype

Which repo owns which ticket. Your test command.

🧯 Which error means what

"Check the fixture", not "check the code".

🏠 Your house rules

What a new hire gets wrong in week one.

📁 Keep it in a repo

Versioned, diffable, pull-requestable.

📚 Add each lesson

Write down why you were wrong. Once.

WHERE IT LIVES TODAY

You've already written most of this down. In your head, which forgets it all when the chat ends.

THE MORAL

A skill is that knowledge, outside your head.
